PART III—SECTION 2

Notifications and Notices issued by the Patent Office relating to Patents and Designs

THE PATENT OFFICE

Patents and Designs

Calcutta, the 3rd January 1959

Special Notice

It is hereby notified for general information of the public that the holidays specified below will be observed at the office of the Controller of Patents and Designs, Calcutta during the rest of the year 1959:—

Netaji's Birthday—23rd January

Republic Day—26th January

Sree Panchami—12th February and 13th February

Doljatra—24th March

Good Friday—27th March

Id-ul-Fitr—10th April

First Baisakh—15th April

Id-uz-Zuha—18th June

Muharram—17th July

Independence Day—15th August

Janmastami—26th August

Mahatma Gandhi's Birthday & Mahalaya—2nd October

Durga Puja—8th to 12th October

Lakshmi Puja—16th October

Kali Puja—31st October

Christmas Day—25th December

Applications for Patents

The dates shown in crescent brackets are the dates claimed under Section 78A of the Act.

The 18th December 1958

6170. Schering Aktiengesellschaft. X-ray contrast media and new opaque compounds.

6171. A. Kuckens. Method and apparatus for producing tubes with a helical welding seam.

6172. The Tempered Spring Company Limited. Means for securing railway rails to sleepers. (19th December 1957).

6173. Etablissements L. Faiveley (Societe Anonyme). Deployable current collecting device for locomotives or rail cars propelled electrically.

6174. Birs Beteiligungs- Und Verwaltungsgesellschaft A.G. Process for the stabilization and concentration of dried powders of solutions and suspensions. (13th May 1958).

The 19th December 1958

66175. Council of Scientific and Industrial Research. A process for the oxidation of ortho, meta and para xylenes and mixed xylenes to the corresponding tolualdehydes.

66176. Kamani Pigment Works. Improved process of manufacturing red lead and the like oxides.

66177. American Cyanamid Company. Deoxyanhydrotetracyclines. (17th October 1958).

66178. American Cyanamid Company. Production of compounds of the tetracycline series. (17th October 1958).

66179. Chas. Pfizer & Co., Inc. Animal feed.

66180. Union Carbide Corporation. Preparation of bisphenols.

66181. Montecatini Societa Generale Per L'Industria Mineraria E Chimica and K. Ziegler. Improvements relating to the polymerisation of unsaturated hydrocarbons.

The 20th December 1958

66182. Libbey-Owens-Ford Glass Company. Glass bending mold.

66183. Owens-Corning Fiberglas Corporation. A process and device for the manufacture of fibres of heat-softenable mineral material, particularly fibers of glass.

66184. R. C. Pande. Improvements in or relating to cabinets or the like.

66185. M. J. Lewenstein. Morphine derivative.

66186. Joh. A. Benckiser GmbH Chemische Fabrik. Process for the production of therapeutically valuable compounds. [Divisional date 9th August 1957.]

66187. T. Mensforth. Improvements relating to single-phase or like alternating current electric motors. (15th January 1958).

66188. Elektrokemisk A/S. Improvements relating to furnace charging and fluorine recovery in the production of aluminium by Molten Electrolysis.

66189. Henry Squire & Sons Limited. Improvements relating to hasps. (16th January 1958).

66190. The Goodyear Tire and Rubber Company. Improvements in calibration of electrical temperature control.

The 22nd December 1958

66191. J. A. Tareporevala. An improved gear box for motor cars and the like.

66192. Universal Machine Company. An improved speed control device.

66193. K. N. Kaimal. 2, 4, 5-T (2, 4, 5-trichloro phenoxy acetic acid) and its derivatives for latex stimulation.
66194. Council of Scientific and Industrial Research. Improvements in or relating to can-sealing composition.
66195. Council of Scientific and Industrial Research. Preparation of lead dioxide electrodes for electrolysis.
66196. Council of Scientific and Industrial Research. A process for the isolation of new cardiac glycosides from the seeds of thevetia nerifolia juss.
66197. Council of Scientific and Industrial Research. A new method for the oxidation of cumene to α cumylhydroperoxide.
66198. Farbenfabriken Bayer Aktiengesellschaft Process for dyeing with vat dyestuffs. (8th October 1958).
66199. Societe Des Usines Chimiques Rhone-Poulenc. Improvements in or relating to phenothiazine derivatives.
66200. Glaxo Laboratories Limited. Improvements in or relating to the preparation of steroid compounds. (31st December 1957).
66201. Ciba Limited. Process for coloring spinning or like compositions for producing shaped structure.
66202. Sandoz Ltd. New hydrazine derivatives and a process for their manufacture. (18th September 1958). [Addition to No. 64951.]
66203. K. Tanaka. High output lighting system for a fluorescent lamp.
66204. Brotherton and Company Limited. Improvements in or relating to composite pigments. (24th December 1957).
66205. The Mond Nickel Company Limited. Improvements relating to devices for controlling nuclear reactions. (3rd January 1958). [Addition to No. 61611.]
66206. Horstmann and Sherwen Limited. Improvements in or relating to wood working machines. (23rd December 1957).
66207. R. O. Bracke. Improvements in or relating to oil burners.
66208. K. Chandra. Improvements in or relating to electric fans.
66209. Her Majesty's Postmaster General. Improvements in or relating to subscribers' telephone sets. (23rd December 1957).
- The 23rd December 1958*
66210. T. R. Rao. Fabrication of glass containers for lead-acid storage cells.
66211. B. M. Sreeramulu. Toy for shooting amorce
66212. Dunlop Rubber Company Limited. Improvements in or relating to a method and apparatus for the manufacture of pneumatic tyres. (15th January 1958).
66213. American Cyanamid Company. Epimers of 6-demethyl-6-deoxytetracycline. [Divisional date 17th February 1958.]
66214. E. I. Du Pont De Nemours and Company. Improvements relating to elastomeric compositions and articles comprising them. (9th October 1958).
66215. Bured, Inc. Fabric packaging machine.
66216. M. Matolia. Light weight insulation building material.
66217. N. H. Friedman. Electrically conductive systems.
66218. Farbwerke Hoechst Aktiengesellschaft vormals Meister Lucius and Bruning. New benzene-sulphonyl-ureas and process of preparing them. [Addition to No. 64270.]
66219. Parks-Cramer Company. Method of and apparatus for cleaning floors in textile mills.
66220. Woodall-Duckham Construction Company Limited. Improvements relating to the cleaning of the sealing surfaces of the doors and door frames of a horizontal coke oven. (24th December 1957).
66221. Woodall-Duckham Construction Company Limited. Improvements relating to the cleaning of the sealing surfaces of the doors and door frames of a horizontal coke oven. (24th December 1957).
66222. Woodall-Duckham Construction Company Limited. Improvements relating to the cleaning of the sealing surfaces of the doors and door frames of a horizontal coke oven. (24th December 1957).
66223. Woodall-Duckham Construction Company Limited. Improvements relating to the cleaning of the sealing surfaces of the doors and door frames of a horizontal coke oven. (24th December 1957).
66224. D. K. Dhand. Improvements in or relating to feed drum and load knives for weighing machines.
66225. Bristol Aircraft Limited. Improvements in vehicle bodies. (3rd January 1958).
66226. Ciba Limited. New pyrazoles and a process for their manufacture.
66227. Svenska Aktiebolaget Bomsregulator. A control valve for a fluid pressure operated servomotor in fluid pressure brake systems for vehicles particularly railway vehicles.
66228. Council of Scientific and Industrial Research. Improvements in or relating to wheel mounting mechanisms.
- The 24th December 1958*
66229. V. N. P. Mathur. Invention of an economiser for raising temperature and humidity of air to the desired extent for circulation in a chamber.
66230. Gesellschaft Fur Linde's Eismaschinen Aktiengesellschaft Zweigniederlassung, Hollriegelskreuth. Improvements in or relating to heat exchangers.
66231. Wetzell Gummiwerk A.G. Improvements in sliding clasp continuous fasteners. (8th January 1958).
66232. Farbwerke Hoechst Aktiengesellschaft vormals Meister Lucius and Bruning. Selective herbicides.
66233. Dompe Farmaceutici. Dosing stopper for bottles and the like.
66234. Ciba Limited. New Diazacompounds and a process for their manufacture.
- Alteration of Date**
62406. The claim to priority date 5th December 1956 has been abandoned and the application dated as of 27th November 1957, the date of filing in India.
65926. Ante-dated to 2nd July 1957 under Section 5 of the Act.
66101. Ante-dated to 1st April 1957 under Section 5 of the Act.
- Applications Accepted**
- Notice is hereby given that all persons interested in opposing the grant of patents on any one of the applications referred to below may at any time within four months of the date of this Gazette of India give notice to the Patent Office in the prescribed form No. 6 of the Indian Patents and Designs Rules, 1933, of such opposition.
- A limited number of printed copies of the specification in the following list will be available for sale from the Government of India Book Depot, 3, Hastings Street Calcutta in due course. The price of each specification is Rs. 2 (postage extra, if sent out of India). Requisition for the supply of printed specifications should be accompanied by the numbers of specifications as shown in the following list.
- If required typed copies of the specification together with copies of drawings, if any, can be supplied by the Patent Office on payment of the necessary charges which may be ascertained on application to the office.
- The dates shown in crescent brackets are the dates allowed under Section 78-A of the Act.
59963. H. Heidenwolf and Hans-Georg Biermann. Improvements in or relating to riveted joints. Accepted on 19th December 1958.
- Comprising a hollow rivet member having an opening frusto-conically at one end of said rivet, and including a first terminal section surrounding said opening.*

60065. L. Fried and A. R. D'Andrea. Container top and opener construction. Accepted on 23rd December 1958.
A frangible sealing member forming a lining for and lying against inner side of plate member covering dispensing opening.
60877. Sandoz, Ltd. Process for the production of novel phenthiazine derivatives. (4th April 1957). Accepted on 19th December 1958.
A phenthiazine is condensed with a W-halogen alkylamine.
60878. Sandoz, Ltd. Process for the production of new phenthiazine derivatives. (4th April 1957). Accepted on 19th December 1958.
A diphenyl amine is reacted with sulphur or a sulphur dihalide and the product is worked up.
60892. St. Anne's Board Mill Company Limited. Method and apparatus for making paper or paper board or similar fibrous product. (15th March 1957). Accepted on 23rd December 1958.
Wherein the upper permeable surface is trained round a cellular type roller situated so as to provide entrance to the tapering gap.
60911. The General Electric Company Limited. Improvements in or relating to spring clip fastening arrangements for holding two members in abutment with each other more particularly in lighting fittings. (6th July 1956). Accepted on 19th December 1958.
Including a bent wire or strip of metal with its bent portion fitted around projecting part of one member and having two arms held together against spring force at the bent by engagement of arms with oppositely directed surfaces formed one on each member, the spring force pressing two members together.
60912. The General Electric Company Limited. Improvements in or relating to electrical switching circuits. (12th July 1956). Accepted on 19th December 1958.
Photoconductive element of each electro optical pair of the shift circuit arranged to receive part of the output radiation of the electroluminescent element of the preceding electro-optical pair of the indicating circuit.
60919. J. R. Geigy A.-G. Coloured condensation products and process for the production thereof. Accepted on 23rd December 1958.
Condensing polyprimary compounds with isoindole-1-ones containing at least 3 halogen atoms in benzo radical.
60955. Associated Automation Limited. Telephone coin collectors. (2nd July 1956). Accepted on 18th December 1958.
Comprises a casing, coin slots in the casing a liver and pulsing mechanism
61025. H. Morren. New piperazine derivatives. Accepted on 20th December 1958.
Reacting an omega-(O-R-benzydryloxy)-alkyl halide with a 1-mono-R'-piperazine.
61064. E. I. Du Pont De Nemours and Company. Polyoxymethylene compositions. Accepted on 23rd December 1958.
Comprising a high molecular weight polyoxymethylene and a synthetic polyamide uniformly distributed therethrough.
61065. E. I. Du Pont De Nemours and Company. Polyoxymethylene compositions. Accepted on 23rd December 1958.
Comprising a high molecular weight polyoxymethylene and a phenolic compound.
61090. The British Rayon Research Association. Improvements in or relating to the heat treatment of filaments, fibres threads, films and sheet material. (7th March 1957). Accepted on 23rd December 1958.
Heat treating filament or the like in a fluidized bed.
61232. Ruhrchemie Aktiengesellschaft. Process for the production of 1,3-disubstituted derivatives of 4,5,6,7,10,10-hexa-chloro-4,7-endomethylene-4,7,8,9-tetrahydrophthalene. Accepted on 19th December 1958.
A 1, 3, 4, 5, 6, 7, 10, 10-octahalo-4, 7-endomethylene 4, 7, 8, 9-tetrahydrophthalene is reacted with a compound, MeR (Me=metal of the I group; R-halogen other than Cl, or alcoholate or acyloxy radical).
61327. N. V. Philips' Gloeilampenfabrieken. Improvements in and or relating to methods of manufacturing semi-conductor devices. (10th August 1956). Accepted on 24th December 1958.
Comprising a semi-conductor crystal having an alloy electrode of one conductivity type and a diffused layer of the other conductivity type surrounding the alloy electrode at the surface of the crystal and separating the alloy electrode from the rest of the crystal.
61332. Ciba Limited. New Sulfonamides, process for their manufacture and pharmaceutical preparations containing them. Accepted on 24th December 1958.
Substituted sulphanilamide is reduced hydrolysed or reacted with an alkane sulfinic acid.
61407. National Malleable and Steel Castings Company. Improvements in or relating to a car coupler. Accepted on 22nd December 1958.
Knuckle thrower pivoted to the head has a radially inward and a radially outward surface engaging with respective surfaces of the knuckle.
61458. Ciba Limited. New Benzimidazoles and process for their manufacture. Accepted on 24th December 1958.
Introducing lower tertiary amino lower alkyl radical directly or in stages into 1-position of 5-amino-2-benzyl-benzimidazole.
61668. C. Menon. Automatic cut-off connection for pneumatic tools. Accepted on 20th December 1958.
Comprising a coupling body, nozzle fitted into hose pipe, other end of nozzle housed within coupling body, balls in holes around coupling body and engaging in a groove and nozzle, a retaining ring held by spring fitted around coupling body pressing against square nut, and automatic cut-off valve in a chamber in nozzle, only when nozzle fitted into coupling body the valve allows compressed gas from hose pipe fitted to nozzle to pneumatic tool.
61726. A/S Dumex (Dumex Limited). Process for the manufacture of nicotinic acid and isonicotinic acid. Accepted on 18th December 1958.
Oxidising picolines with manganese dioxide in strong acid media.
61745. Olin Mathieson Chemical Corporation. A method for the preparation of derivatives of 1, 3-dioxane-5-methanol. Accepted on 24th December 1958.
By reacting a trihydric alcohol with the hydrate of a trihalo acetaldehyde.
61993. Stamicarbon N.V. Process for the production of substantially anhydrous urea. Accepted on 23rd December 1958.
By concentrating an aqueous urea solution to a concentration of about 87 to 96 per cent by weight of urea in vacuum at a pressure in excess of 200 mm. of Hg. and then again under a vacuum less than 100 mm. of Hg.
62335. Davidson & Company, Limited. Improvements in or relating to the collection of dust from gases by electrostatic precipitation. Accepted on 22nd December 1958.
Passing gas through an element of an assembly of plates for gases to flow turbulently at speed in excess of that at which deposition of dust occurs, through paths of length in excess of their hydraulic mean depth, and then passing through second element formed of plates arranged in pairs, each alternate plate being of high electric potential whilst remaining plates are at earth potential.

62406. Wickman Limited. Electro-erosion of metals. Accepted on 19th December 1958.

A steady stream of clean dielectric liquid is forced through the electrode to the spark gap between the operative end of the electrode and the work piece.

62442. Imperial Chemical Industries Limited. New colouration process. (14th December 1956). Accepted on 20th December 1958.

Treating the textile materials with a dyestuff and an acid-binding agent said dyestuff containing a sulption- β -haloethylammie radical.

62808. Metallurgical Processes Limited and The National Smelting Company Limited. Improvements in or relating to cooling arrangement for molten lead. (14th January 1957). Accepted on 24th December 1958.

Comprising trough through which lead is passed and one or more rotating water-cooled drums arranged to dip into the lead in trough and means for rotating drums at a speed sufficient to prevent adhesion of solid strip of lead to drum.

63014. Societe D'Electro-chimie, D'Electro-Metallurgie et des Acieries Electriques D'ugine. Method of production of trichlor-ethylene and tetrachlor-ethylene. Accepted on 22nd December 1958.

There is passed over a fluidised solid mass a mixture of chlorine and acetylene with an organic diluent at 350 to 450°C.

63114. James Finlay and Company Limited. Improvements in or relating to trolleys of the type used in the withering of tea leaf by the tunnel method. Accepted on 19th December 1958.

Trolley fitted with tilting holders for the trays, the holders being pivoted at their lower outside corners.

63239. N. V. Philips' Gloeilampenfabrieken. Improvements in or relating to methods of producing new, substituted secondary or tertiary amines containing an alkoxy-benzoyloxy group. Accepted on 23rd December 1958.

Amines containing an alkoxy benzyl group are prepared by methods known per se.

63322. N. V. Philips' Gloeilampenfabrieken. Improvements in or relating to apparatus and/or Method for affixing electric components. (7th March 1957). Accepted on 19th December 1958.

The apparatus including one supply station containing the components, a support for rotatably supporting a platform, a feed member and affixing means.

63451. Geo. W. King Limited. Improvements in or relating to electrical switch units and reversible controllers comprising such switch units. (22nd March 1957). Accepted on 22nd December 1958.

Comprising fixed contacts, movable contact means, toggle linkage coupled to movable contact means, push button device and lever means interposed between push button device and toggle linkage.

63507. Goodyear Pumps Limited. Improvements relating to the forming of rotors for rotary engines, pumps and the like. (22nd March 1957). Accepted on 19th December 1958.

Tool working upon blank's periphery moves through a distance equal to that between successive convolutions of the vane while blank makes one complete revolution.

63517. Corn Products Refining Company. Centrifugal pump. Accepted on 19th December 1958.

Characterized in that the last part of the wall of the helical casing consists of a screen.

63548. S. Stokland. Apparatus for distributing fertilizer or other granular material. Accepted on 19th December 1958.

Wherein means are provided for feeding material from container to distributing chamber, characterised by mouth-piece communicating at its upper end with an outlet from said container.

63676. Creed & Company Limited. Improvements in/or relating to friction clutches. (4th July 1957). Accepted on 19th December 1958.

Comprising a band mounted on a driven member and arranged to engage frictionally a driving member.

63851. Automatic Telephone & Electric Company Limited. Improvements in electrical coils wound with fine wire. (2nd May 1957). Accepted on 19th December 1958.

Connection of an end of fine wire to a hollow termination tag of the former is effected by wrapping the end around a short length of thicker wire and passing at least the wrapped portion of the latter into the hollow of the termination tag and applying solder.

63911. N. V. Philips' Gloeilampenfabrieken. Improvements in or relating to methods of producing semiconductor electrode systems. Accepted on 19th December 1958.

In which parts of the system are removed by the action of a medium which is projected onto these parts while other parts are protected against the action of this medium.

64178. Automatic Telephone & Electric Company Limited. Improvements in encapsulated electrical components. (14th June 1957). Accepted on 23rd December 1958.

Open-fronted container is provided with a centrally disposed tube having toroidal coil mounted, former is filled up to open face with insulating compound and a winding passing through tube.

64266. The British Oxygen Company Limited. Refining of lead. (21st June 1957). Accepted on 18th December 1958.

Refining lead by pouring molten lead and allowing it to fall through a space containing an oxidising atmosphere.

64322. Dharendra Nath Ghosh. An improved continuous Electro-chemical process for the simultaneous deionisation and clarification of beet and sugarcane juices and their residues by subjecting them to direct current Electrolysis with Mercury cathode and anodes of carbon, Aluminium, Iron or Steel. Accepted on 24th December 1958.

Subjecting beet and sugarcane juices to Direct current electrolysis.

64466. Metropolitan-Vickers Electrical Company Limited. Improvements relating to electric welding arrangements. (17th July 1957). Accepted on 19th December 1958.

Providing an electrically-driven controller for controlling the welding voltage and/or, current; controller being connected or adapted to be connected with light weight electric control or switching means.

65926. Fords (Finsbury) Limited, and L. C. Snelling (London) Limited. Improvements in or relating to closing and sealing bottles and other receptacles. (12th November 1956). [Addition to No. 60963.] [Divisional date 2nd July 1957.] Accepted on 18th December 1958.

A resilient or deformable sealing compound, such as a rubberised compound is applied in the form of blobs into internal radial channels of corrugations.

66101. L. Fried and A. R. D'Andrea. Opener for removing a frangible receptacle closure. [Divisional date 1st April 1957.] Accepted on 23rd December 1958.

A single strip of flat metal folded transversely to form two superposed portions one having free end pointed and other, an offset adjacent to fold line.

Printed Specification Published

A limited number of printed copies of the undernoted specifications are available for sale from Officer-in-Charge, Government of India, Central Depot, 8, Hastings Street, Calcutta, at two rupees per copy:—

55356. 55953. 55961. 55971. 55978. 55979. 55982. 55988. 55992. 55999. 56028. 56063. 56338. 56346. 56355. 56364. 56438. 56490. 56494. 56528. 56596. 56851. 56886. 56889. 57024. 57025. 57214. 57277. 57434. 58233. 59044. 59132. 59377. 59667. 59774.

Patents Sealed

55610. 53725. 58788. 58958. 59292. 59428. 59468. 59526. 59546.
 59548. 59555. 59586. 59602. 59603. 59621. 59623. 59644. 59647.
 59648. 59649. 59666. 59700. 59805. 59840. 59875. 59930. 59970.
 59971. 60279. 60369. 60440. 60460. 60569. 60570. 60572. 60620.
 60688. 60706. 60765. 60799. 60834. 60867. 61001. 61101. 61107.
 61171. 61172. 61234. 61348. 61383. 61811. 61817. 61906. 61975.
 62033. 62283. 62447. 62488. 62489. 62614. 62638. 62639. 62742.
 62794. 63045. 63053. 63094. 63118. 63144. 63155. 63177.

Amendment Proceedings

(1)

Notice is hereby given under Section 17 of the Indian Patents and Designs Act, 1911, that Lumalampan Aktiefbolag, of Stockholm 20, Sweden, Manufacturers of Electric Lamps and Discharge Tubes, a Joint Stock Company organised under the laws of Sweden, seek leave to amend the description and claims in the specification in respect of Patent Application No. 61573. Any person desirous of opposing the application for amendment should at any time within three months from the date of this Gazette, give notice of his intention to do so on the prescribed form (form 6 of the Indian Patents and Designs Rules, 1933) in the Patent Office, 214, Lower Circular Road, Calcutta-17. The proposed amendment may be seen free of charge at the Patent Office, or copies thereof may be obtained from the Patent Office, on payment of the usual charges.

(2)

The amendment proposed by Glaxo Laboratories Limited in respect of Patent No. 56040, as advertised in the Gazette of India, Part III, Section 2, dated the 30th August 1958, has been allowed.

(3)

The amendment proposed by British Artificial Resin Company Limited, in respect of Patent Application No. 60401, as advertised in the Gazette of India, Part III, Section 2, dated the 30th August 1958 has been allowed.

Renewal Fees Paid

28596. 31866. 31956. 31967. 32165. 32168. 32169. 32543. 33812.
 33843. 33898. 34047. 34123. 36436. 36480. 36570. 36618. 36625.
